# How To Choose A Photo Booth

- Many customers feel confused about how to choose a good supplier, and now, we'd like to share with you about the points suggested by cool clap photo booth experts:
  - 
  - a. If the supplier have the ability to design the photo booth and software as the customer requested, e.g. change the logo, strips and layout design etc.;
  - b. If the supplier can provide the software after sales updates and developments;
  - c. If the supplier can equip the photo booth with professional printer rather than only traditional ink printer, e.g. Epson R230/ T50, which is very annoy for the customers to change ink and paper again and again.
  -
- Wish you find a really good supplier and doing good marketing with your preferred photo booth.

# Which Photo Booth Is Suitable For You?

- For Rental
- For Vending
- For Opening Business
- For Advertising
- For Brand Promotion
- ...

# Our Suggestion
